

SAFETY FIRST

Congratulations for choosing most modern and safe mode of travel

Fatal accident rate (per million flights)
per aircraft generation 1958-2020

Your life is important to us
Airline safety guidelines closely
monitoring flight data for any
misfortunate events. Airline
safety guidelines are making
sure air travel is safe.
Worldwide aircrafts are moving
to Gen-4 to leverage latest
technology with 53% aircraft
being Gen-4 in year 2020.
